

Australian Engineering Week

What will you discover?

ENGINEERS AUSTRALIA

Student Night Inspiring the next generation of engineers

Come along to our free Student Night and be inspired! High school students interested in a career in engineering, as well as parents, teachers and career counsellors, are invited to this specially engineered event to provide information about engineering in a fun and interactive way.

The night will consist of two simultaneous activities.

One group will be directed to the main Scitech floor to participate in the many interesting activities and visit the activities in Rio Tinto Innovation Central. There will also be the opportunity to talk to representatives from WA universities, Challenger TAFE, Central Institute of Technology and Department of Defence.

A second group will be invited to take a seat in the Planetarium and hear Scitech's star presenter Leon

Smith's presentation 'Spaced-out Engineering,' including a live tour of the WA night sky, solar system and recordable known universe. Some of our young engineers joining us on the night will share their career stories including Dr Bay Yeo from Australia's Bridge, Stuart Peterson from Woodside (creator of WA's Pedal Prix, an engaging practical event for students and the community), Rashmin Gunarathe from the Department of Defence, Sebastian Bunney from Chevron and Georgina North from Wood Kenny Group.

These two groups will switch places half way through the evening's activities.

Pizza and soft drinks will be provided.

Numbers are limited so be sure to register so you don't miss out!

Event Details

Date

Tuesday 4 August 2015

Time

6:15pm arrival for a 6:30pm start to 8:30pm

Venue

Scitech, City West
Corner Sutherland Street
and Railway Parade
West Perth 6005

Cost

FREE to all attendees
Refreshments provided

Please note: Children under four years of age are not permitted into the Planetarium.
