

Dear Parent/Caregiver

You would be aware that Year 10 *Course Advisory Process* is occurring during the week **22 June to 26 June 2015**. Unfortunately, your child was **not** able to complete this process because they could not satisfactorily identify their chosen career or post-school aspiration.

It is critical that students have identified a career or post school aspiration so that an appropriate program for Senior School can be established. Students have been supported through a career development program conducted during the regular AVID class. This program supported students to develop their post-school aspirations, and in researching the requirements of their chosen field. It is important that your child is able to quickly identify realistic post-school aspirations so that the *Course Advisory* process can continue for them.

As a matter of urgency, please discuss this with your child so they are able to quickly return, fully prepared, to the *Course Advisory* process. When your child returns to the process they should be able to:

- Clearly identify one to three post-school aspirations/career paths which interest them; and
- Know what the training and qualification requirements of their chosen fields are.

We are aiming to complete the Course Advisory process for all students by 26 June with all student selections finalised by 3 July.

If you wish to discuss this matter, please contact me on 9523 3600 to organise an appointment.

Yours sincerely

Yr 10 Course Advisor -
